eVeryride

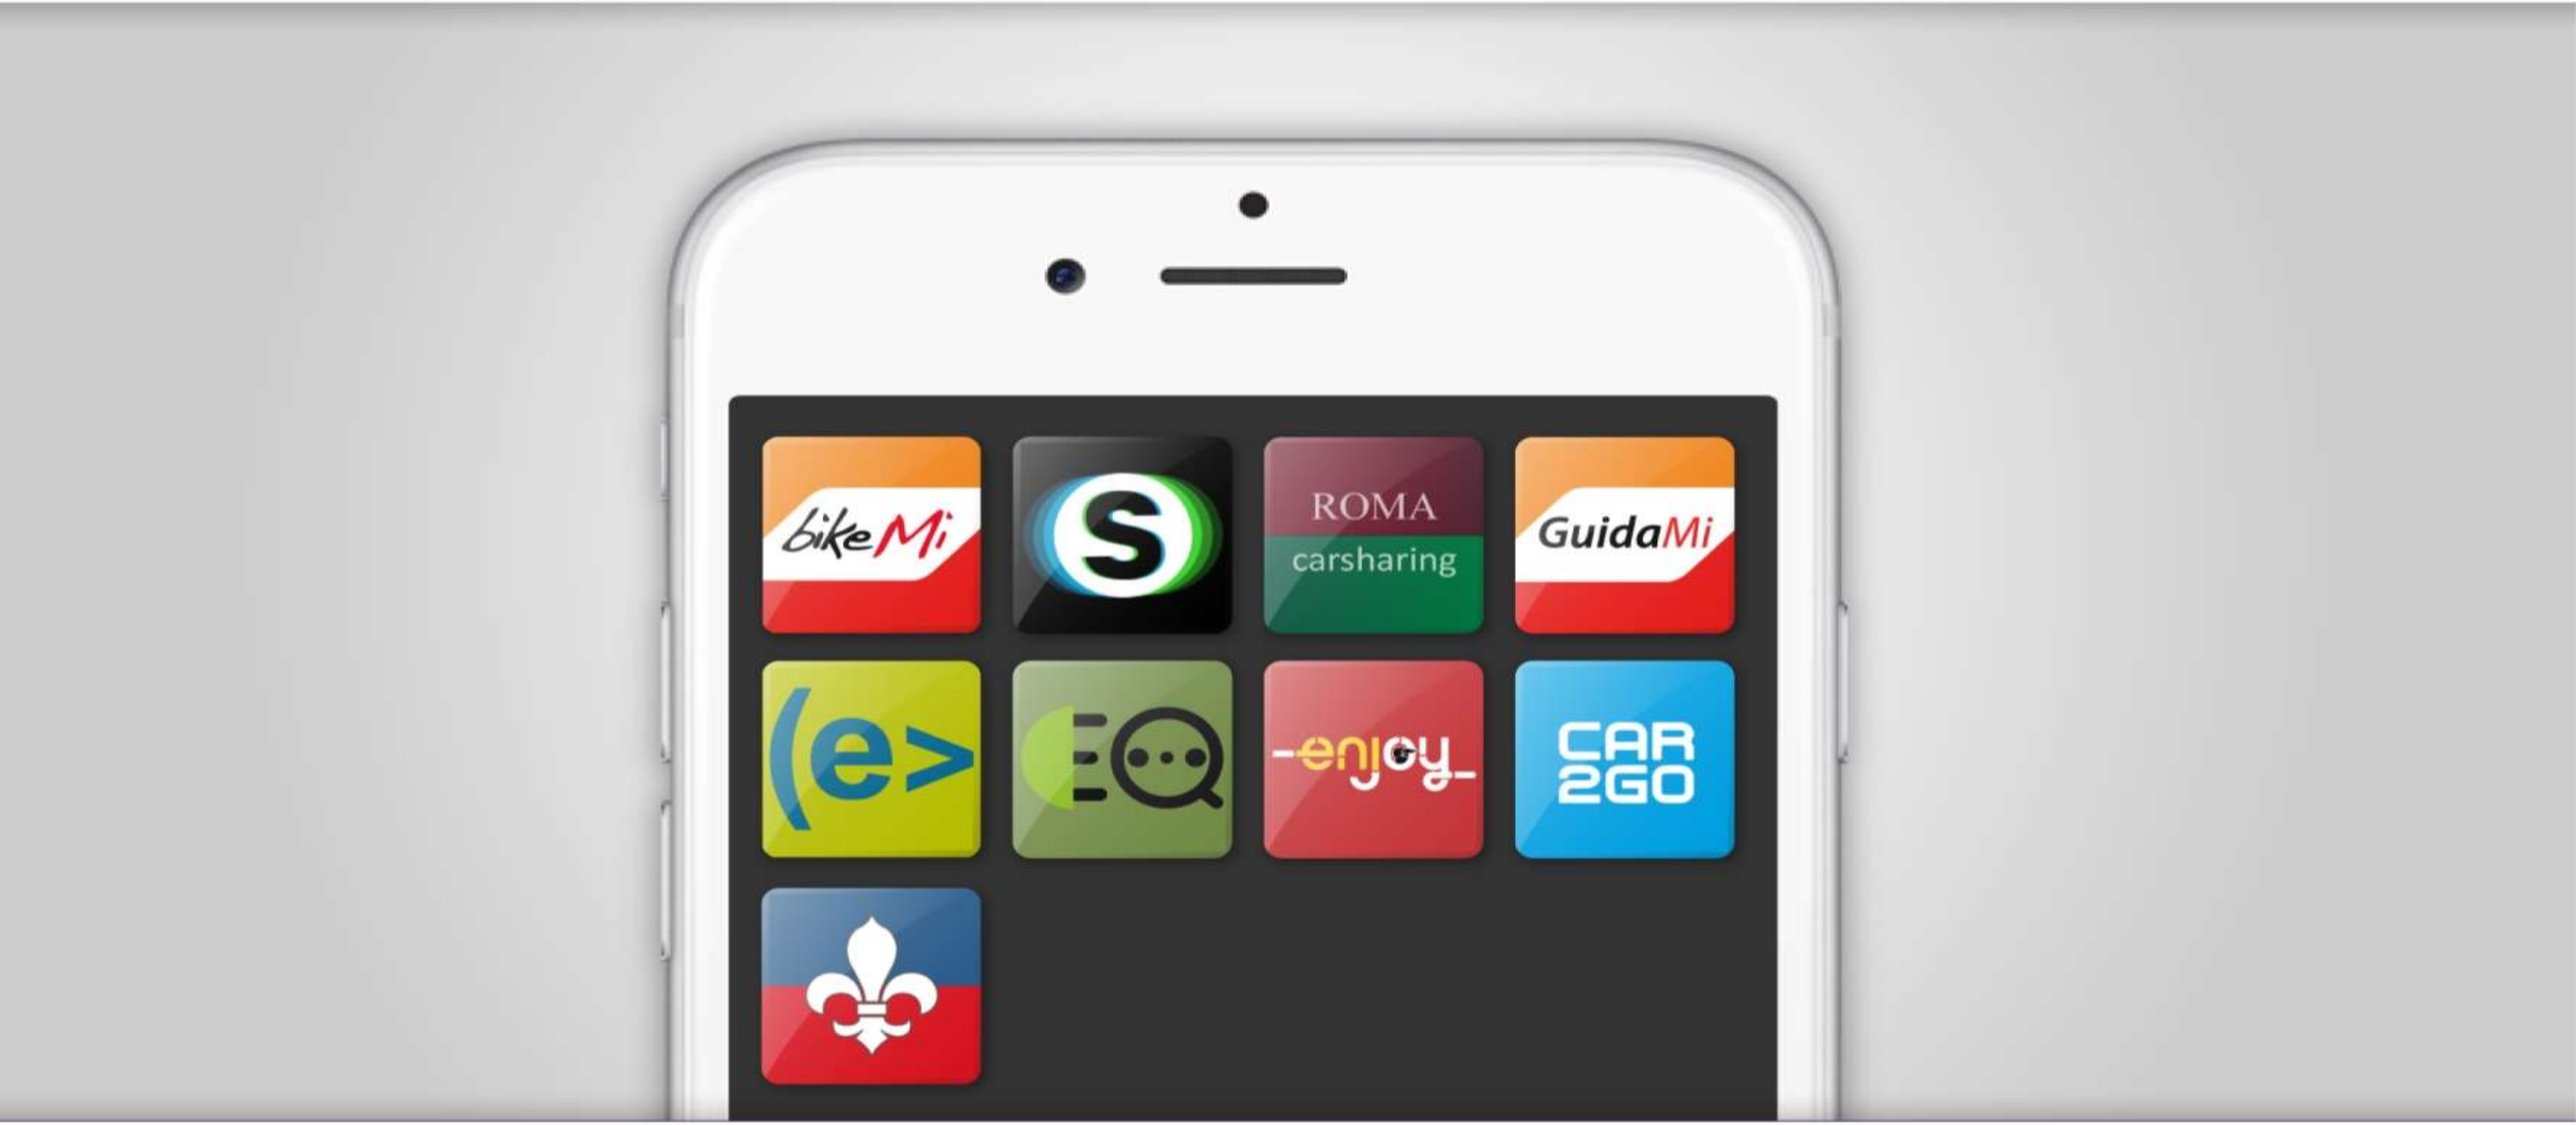
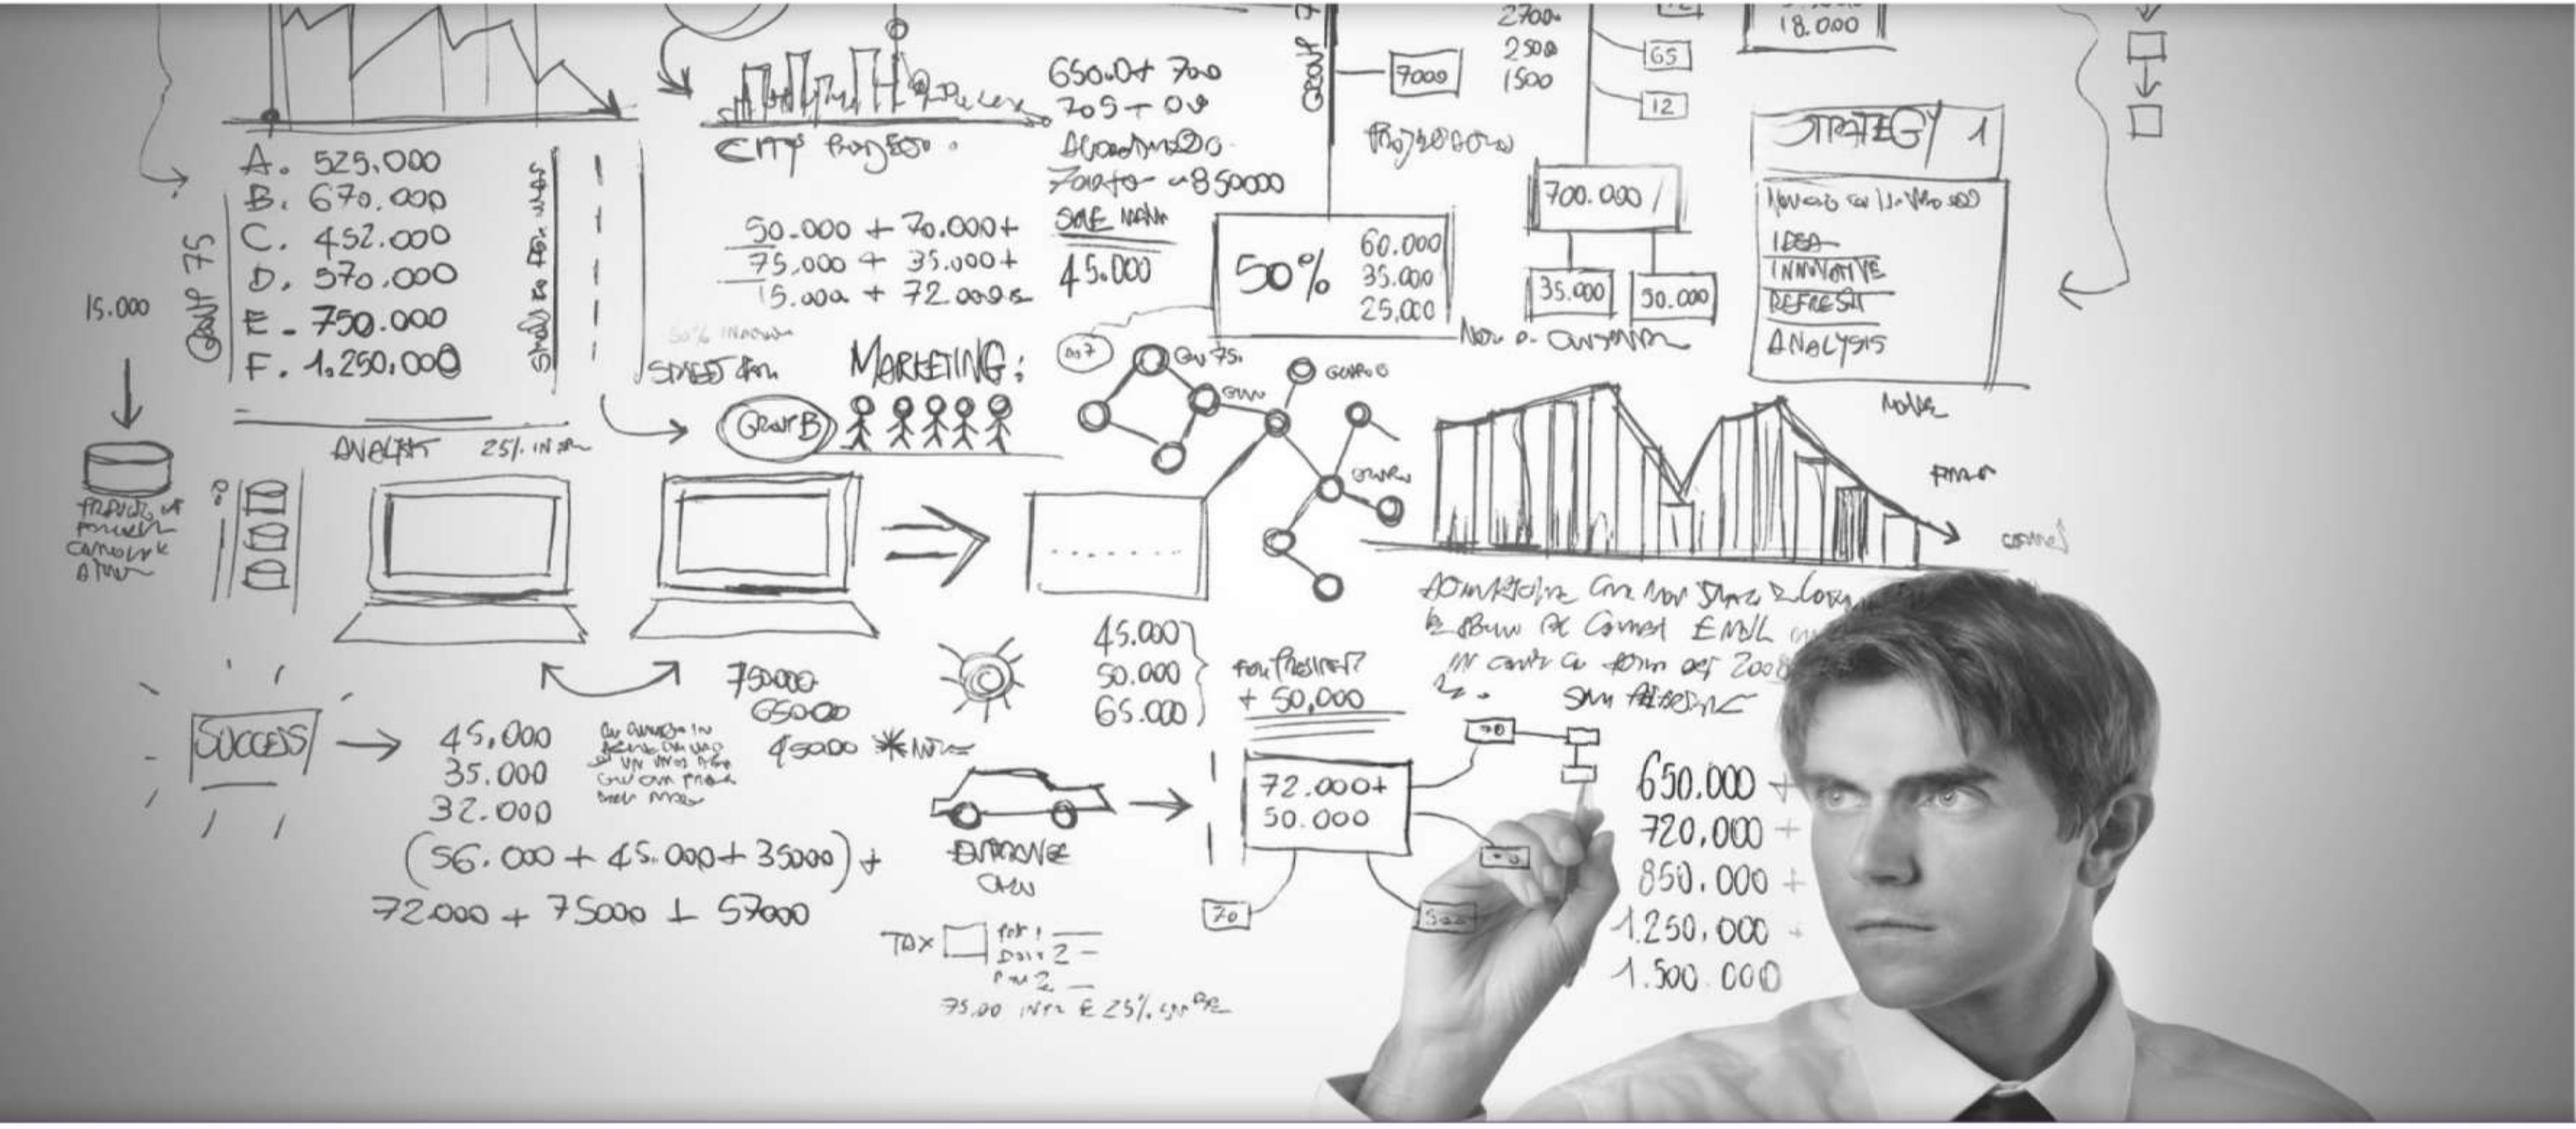
Providers

eVeryride

A lot of different ridesharing services with their own appliction (unefficiency)

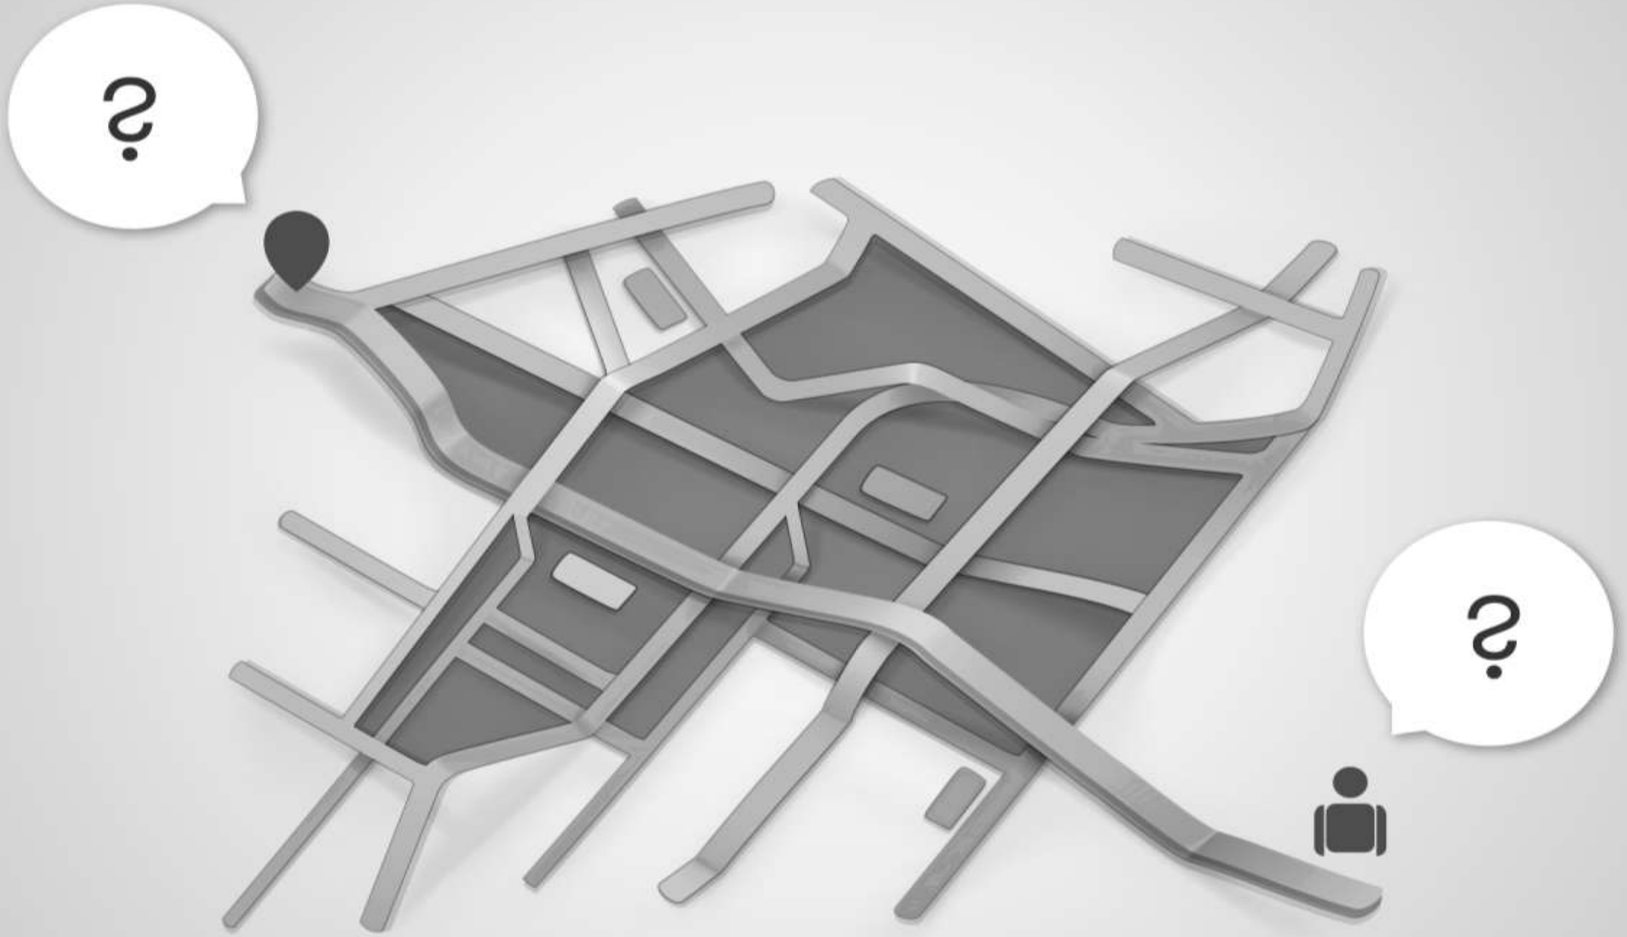


Commercial offers are not easily comparable between different providers



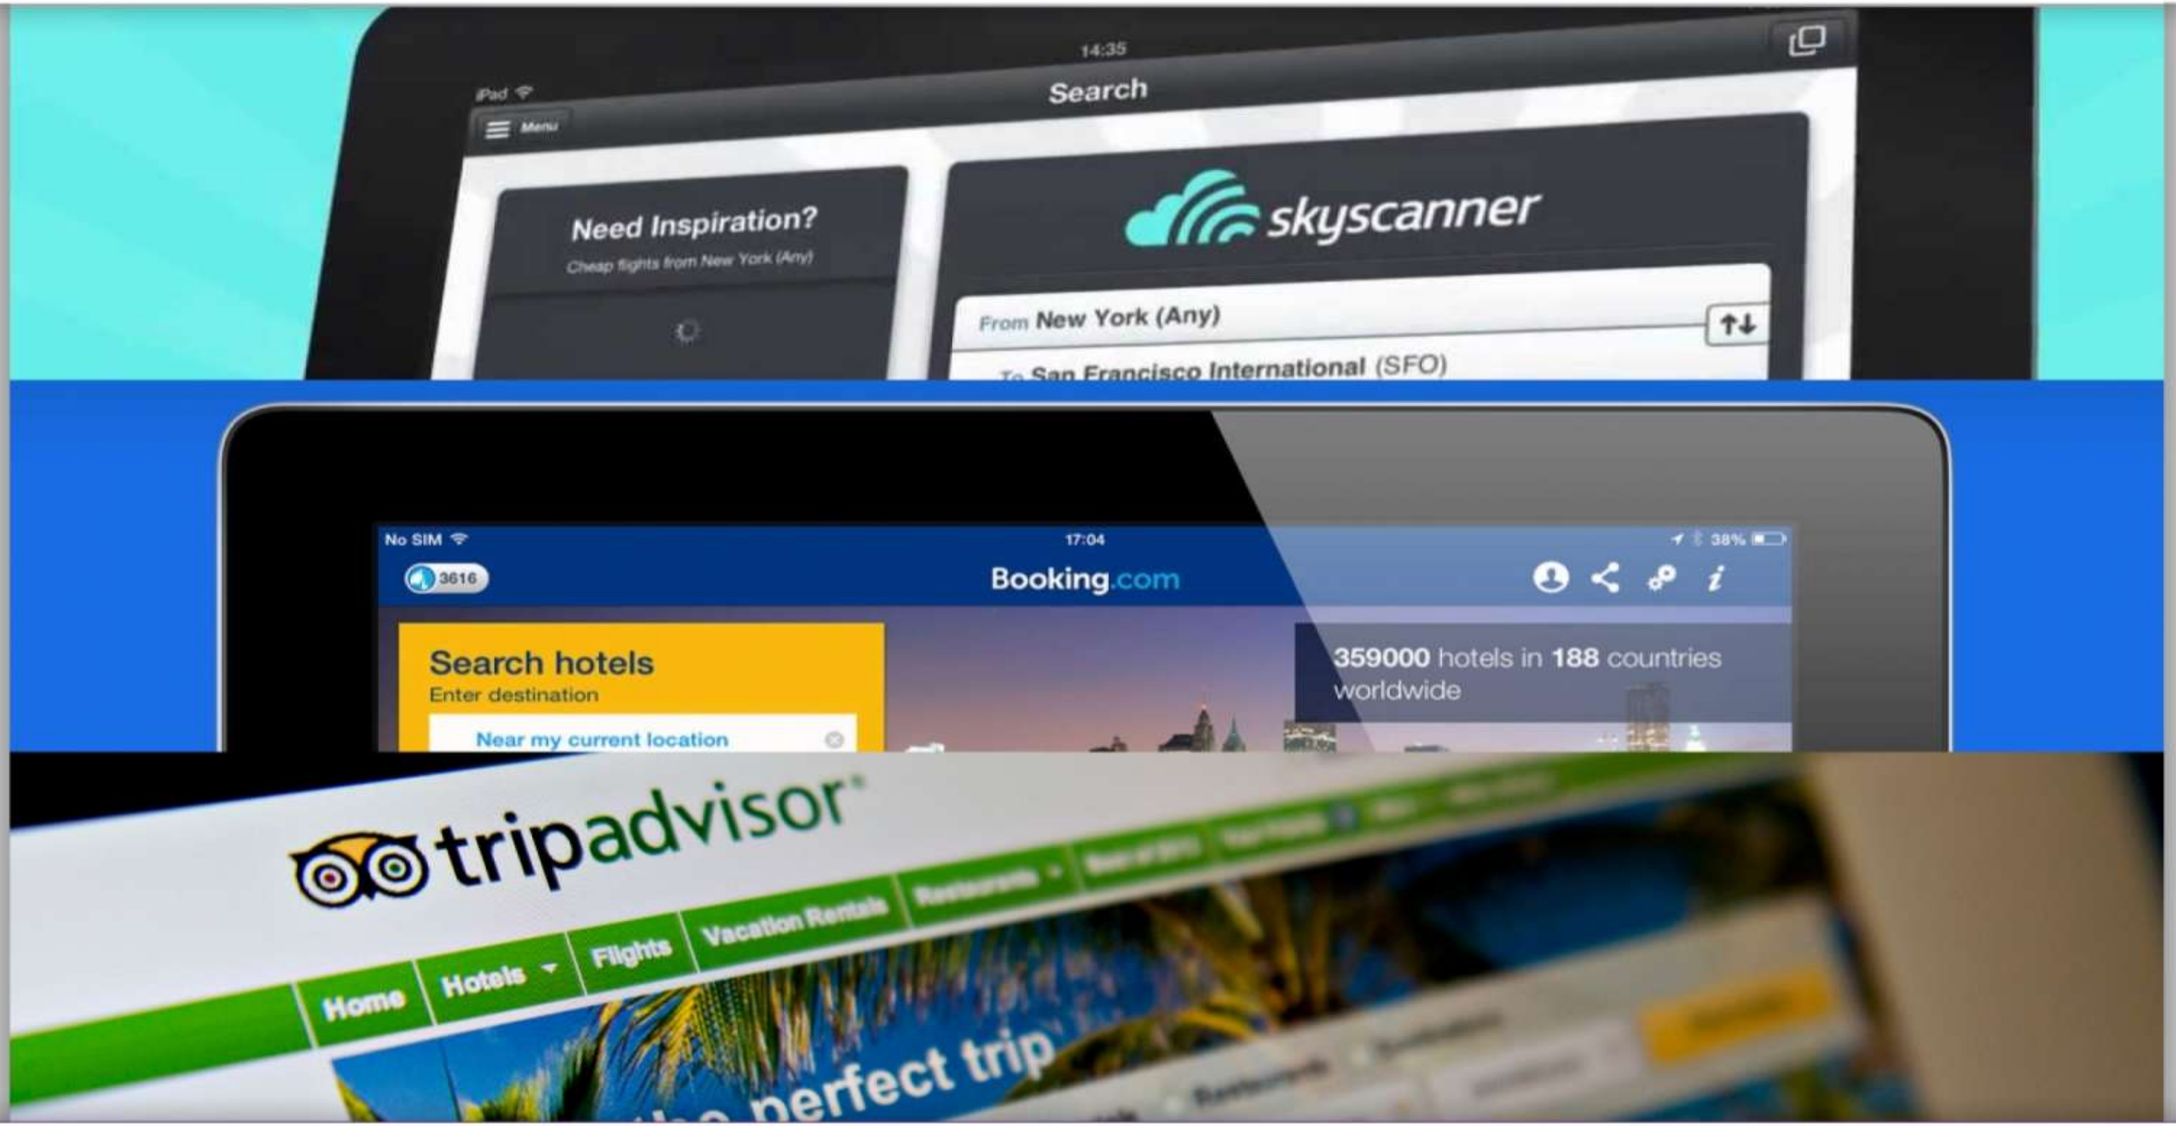
eVeryride

No interaction between users



eVeryride

Aggregators in other markets



eVeryride

Solution

- To manage, compare and book all ridesharing services directly from a single application
- Personalization with accurate view over time and costs to destination for every vehicle
- Interaction with other users that need to travel same distance/route in order to split costs
- Option of viewing alternative solutions/options
